

Starting the CD-ROM

Daydream Education's Interactive Whiteboard Charts require the installation of Adobe AIR; available from get.adobe.com/air/ or www.daydreameducation.com

PC Installation

Insert the CD-ROM into the CD/DVD drive.

The CD-ROM should open automatically or an *'AutoPlay'* pop up window will appear.

If the *'AutoPlay'* pop up window appears click on the *'Run Startup.exe'* option.

If the CD-ROM does not open automatically:

1. Click *'Start'* on bottom navigation bar and select *'My Computer'* (this can be called *'Computer'* or your computer name) from the menu.
2. Double click on the *'CD-ROM'* icon and the start-up screen will appear (see start-up menu).

Mac Installation

Insert the CD-ROM into the CD/DVD drive.

The CD-ROM should run automatically. Double click on the *'Startup'* icon.

If the CD-ROM does not open automatically:

1. Double click on the *'CD-ROM'* icon on the desktop.
2. Double click on the *'Startup'* icon (see start-up menu).

Start-up Menu

Within the start-up menu there are the following options:

Install

Click on the *'Install'* button and follow the on screen instructions to install the software. The amount of disk space required varies.

All Interactive Whiteboard Charts can be installed on a network server (see Network Installation Instructions).

Run without Installing - PC only (option NOT available on Mac).

Click on the *'Run without Installing'* button to run the software from the CD-ROM.

Please note: The software will run slower when run from CD-ROM.

Play Demo Video

Click on the *'Play Demo Video'* button to view a demonstration video of the Interactive Whiteboard Charts. An Internet connection is required for this.
